House Special Committee on Fisheries
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182

RE: SUPPORT HJR 5, OPPOSING GENETICALLY MODIFIED SALMON

Dear Chairman Seaton and Committee Members,

UFA is on record with the U.S Food and Drug Administration (FDA) in opposition to approval of genetically modified salmon for production and consumption in the U.S. However, if approved for production and consumption in this country, we have strongly requested that FDA regulations require that salmon or any other genetically modified seafood products be clearly labeled as such.

Alaska leads the world in sustainable fishery management practices and we have gone to great effort and expense to differentiate our seafood products in the marketplace. We are very concerned that if genetically modified salmon is allowed to be sold in the U.S. at all, or not labeled clearly, Alaska fishermen and coastal communities will suffer job losses and economic hardship due to consumer confusion about the wholesomeness of salmon in general.

United Fishermen of Alaska represents 34 Alaska Commercial fishing organizations, and hundreds of individual fishermen and related businesses. We support HJR 5 and we applaud the State Legislature for your dedication to Alaska's fisheries and position in the global marketplace.

Sincerely,

Julianne Curry
Executive Director
